

As a resident of the Yakima valley I was saddened to hear that I may no longer hear K-LOVE on my local station. I have supported this station for many years and to hear that I might lose it because of an LPFM broadcaster makes me very unhappy. K-LOVE provides some positive aspects for this community that few, if any, radio stations provide. Instead of my children or myself hearing trash talk and immoral content, we get to hear upliftin commentary and music that encourages. This is a bad move and would leave us without the one station we listen to. Thank you.
